LEGO® Stop-Motion & Animation with 3D Printing:

Let your children explore the world of stop motion capture and animation concepts in our creative Animation & Movie Camp! Campers will plan, design, direct, and film their very own movies by drafting storyboards, building Lego pieces and sets, adding music, and applying special effects. Campers will get to make a movie using Green Screen technology. Children can utilize our many popular curriculum themes: Super Heroes, Star Wars, Lego Friends, Arcade Games, or, get as creative as they'd like! In addition, this course includes an introduction to the world of 3D printing! Campers will learn about 3D printers, get to see one in action, make their own creations using our awesome 3D printing pens, and take home a printed character!

Robot Madness!

It is all about Robots in Robot Madness camp! Campers will get to work in small bot teams using our raved about Lego Mindstorms Robotics kits! After learning about design, the building process, and programming their bots, individuals and teams will build and participate in various challenges including ramp climbs, line challenges, and bot fights! In today's constantly changing world of technology, campers will be introduced to the latest Robotic technology. Packed with tons of Robot fun, this is our most popular camp yet!

Tech Engineering with Lego® & 3D Printing:

Explore your curiosity for technology at our Technology Engineering Experience! Designed with kids in mind, our Technology Experience includes LegoEngineering, Lego Movie Making, Robotics, Drones, and more! Working in small teams, kids will learn about various engineering, technology, robotics, and animation concepts, and apply these to many different projects. In addition, this course includes an introduction to the world of 3D printing! Campers will learn about 3D printers, get to see one in action, make their own creations using our awesome 3D printing pens, and take home a printed character!
